

Shepherd's Corner

Dear Parishioners,

“Lack of vitamin D is basically a pandemic,” says Dr. John Campbell. A recent study (Spain) showed 80% of Covid-19 patients have a vitamin D deficiency. Vitamin D, turns out, is really important; its essential for modulating the immune system. Campbell goes on: “There’s increasing evidence [both epidemiological and clinical] that having good levels of vitamin D reduces the incidence (number of new cases of Covid-19), how sick they are, and how likely they are to die. In addition, low levels of vitamin D are associated with high blood pressure, diabetes, cancer, cardiovascular diseases.” (Campbell, Youtube, 23 Nov.)

Fear. Yet, no western government (Niagara Region too) promotes a healthy immune system for combating SarsCov-II. *Criminal.* I remind you of vitamin D because ignorance of this might inhibit the gospel. How? Fear, often a result of ignorance, easily prevents us from living. FDR was right: “The only thing we have to fear is fear itself – nameless, unreasoning, unjustifiable terror which paralyzes needed efforts ...”

Proof. According to Cardinal Collins this week, 4 million people are in danger by one communion on the tongue: “If we have one parish that is loosie-goosie with the protocol ... I cannot have one parish mess it up for us all! Endanger the whole diocese! Every parish in the whole province for that matter!” Here is a man conquered by fear. The propaganda has taken hold. His good will is assumed.

Garbage. They say there is 207 people with Covid-19 in the Niagara region. However, the PCR test is being used to manipulate the results which are “clinically and scientifically meaningless”. (See video: Peak Prosperity, 1 Dec.)

Serious. I feel really bad for the 12 people (5.8% of 207) who visited the hospital due to Covid-19. How many people visited the hospital due to pneumonia, fentanyl, gonorrhea, or suicide? Until we know, the ‘12’ has no meaningful context.

Some Context. As of 3 Dec., there had been a total of 12,407 deaths attributed to COVID-19 in Canada. In 2018, there were 8,740 flu/pneumonia deaths. Also, the seasonal flu have disappeared from Canada stats.

Marxist. There is a take-over happening in 7 easy steps: 1) Exaggerate the problem (with 80% false positives, scary headlines). 2) Fear mongering (stay home or murder grandma). 3) Enforce a ‘solution’ worse than the problem (social and economic collapse). 4) Create government snitches. More the merrier. 5) Lie about cheap, effective preventative and curative measures (vitamin D, zinc, hydroxychloroquine, Ivermectin, z-pack, etc.) 6) Punish all non-compliance with legal and/or illegal powers (Who cares which?). 7) Propagandize the people to be vaccinated.

Nutritional health is not my field, nor did I give you medical advice. Trouble is, the Marxists won’t care about your soul either.
